In addition to this form, please submit 3-4 cups of sand samples submitted from the beaches that you feel are best suited for our process. Clearly label each sand sample. Indicate where it originated from so that we can analyze it and determine if our process is suitable for that particular beach. If possible, please also submit aerial beach photos or beach postcards as well as a map or survey indicating the size and shape of each beach. Send all requested materials and sand samples to the above address.

Upon receipt and review of all above requested information and material, we will be better suited to determine further your continued participation and possible completion of the BNBLCandidate process. This may result in you or your company becoming a Fully Authorized BNBL. You will be contacted shortly upon completion of our findings. We thank you for your cooperation.
